RE: Bond Release for Georgia Pacific's Eagle Canyon Gypsum Mine;
T. 22 S., R. 8 E., Sections 24 & 25
T. 22 S., R. 8 E., Sections 19 & 30

Dear Mr. Baker:

The Bureau of Land Management (BLM) inspected the reclamation efforts for the Georgia Pacific Eagle Canyon Gypsum Mine on February 15th and April 25th of this year. BLM representatives Kyle Beagley, Greg Gochnour, and Chris Conrad, in conjunction with Mr. Paul Baker representing Utah Division of Oil, Gas and Mining (UDOGM), participated in the inspections. Although soil moisture was less than expected due to the dry winter, re-contouring and plant growth were considered adequate and for bonding purposes, reclamation is complete. Our records indicate that the bond currently held by the UDOGM is in the amount of \$30,000 and we recommend releasing the entire sum. In addition, case file UTU-69850 (M/015/050) will be closed.

As detailed above, the BLM approves the release of \$30,000 for the Georgia Pacific Eagle Canyon Gypsum Mine. If you have any questions or comments please contact Greg Gochnour at (435) 636-3639.

Sincerely,

Patricia A. Clabaugh
